Abstract

PROBLEM TO BE SOLVED: To provide a method for producing hard candy, capable of producing hard candy using 100 wt % xylitol as a basic material and ensuring sufficient contribution to health by melting and liquefying xylitol, packing the liquefied xylitol into a heat-resistant vessel and cooling and recrystallizing the xylitol after packing

SOLUTION: This method for producing hard candy comprises a first step S2 for melting and liquefying 100 wt % xylitol used as a base material, a second step S3 for packing the liquefied xylitol into a heat-resistant vessel and a third step S4 for cooling and recrystallizing the xylitol after packing
